TARALGA SHOW

THE FIRST DAY

A SUCCESSFUL EXHIBITION

Officials - Patrons, Messrs J.J.Lynch, M.H.R. and G.W.Fuller, M.L.A.: president, Mr H. Twynam; vice -presidents, Messrs Jas Miskelly, M.W.F.Charteris, and C.M.Bradbury; treasurer, Mr A.H.Pearce, auditors, Messrs C.S.Bradbury and H.T.J. Dawson, secretary Mr Geo.C.Goodhew; committee, Messrs W.J.Cree, M.W.F.Charteris, A.H.Pearce, H.V.Cocks, T.M.Barry, J.J.Walsh, John Fitzgibbon, C. Ross, O.Maher, C.S.Bradbury, W.D.McKenzie (Strathairn), D.McRae, E.Vernon, Jas Miskelly Jnr, H.Twynam, Jas Howard, S.Munro, G.T.Goodhew, W.Aylward, L.J.Maher, Cecil Mooney, H.H.Gordon, H.T.J.Dawson, W.H.Bradbury Jnr.

The annual show of the Taralga Agricultural Pastoral and Horticultural Association commenced on the grounds of the society on Thursday. A large number of visitors were present.

Mr Fuller, member for Wollondilly, was to officially open the show on Friday. Mr Fuller was present on Thursday.

Despite the critical period through which the country has passed the show compared favourably as regards both attendance and exhibits with those of previous years. An improvement was to be noted in the horse ring, where the location of the hurdles had been changed, thus enabling the jumping events to be carried out under more favourable conditions.

The various duties incidental to the show were efficiently fulfilled by the committee, judges and stewards. The Judging was promptly carried out, and the success of the exhibition was a fitting reward to the painstaking efforts of the committee and the secretary (Mr. G.C.Goodhew). The catering for the luncheon was in the hands of Mrs Spicer.

The central pavilion was well filled with a variety of exhibits, chiefly farm produce, fruits, and flowers. Those exhibits were the finest, both in respect of quantity and quality displayed at the show for many years, and provided a splendid advertisement for the productive capacity of the district. The fruits included fine and large samples of apples, pears, plums, grapes, etc., and a variety of pot plants lent a wealth of colouring to the display of flowers. The vegetables, including pumpkins, potatoes, onions, marrows, etc., were excellent, the potatoes in particular being very fine specimens

As regards cattle and horses, very fine animals were on exhibition, and the show in that section was about on a level with previous years. There was, however, a considerable falling-off in the number of sheep displayed. Mr J.Jamieson, who has been conspicuous as a prize-winner in former shows, did not enter any of his stud sheep on this occasion, and this alone made a considerable gap in the exhibits, The season has not been favourable to the rearing of sheep, but the quality of those exhibited was good. The wool showed fine growth and the sheep were in splendid condition.

The poultry section did not appear to be strongly represented, and there is room for development in this line. The best of the poultry exhibits were some very fine turkeys, but useful table and laying fowls were few.

Dogs were in usual strength. The greyhounds of which a particularly large number were on exhibit were of good appearance.

A very interesting feature of the pavilion exhibits was a number of Egyptian curios and paintings. These formed a non-competitive exhibit by Mrs A. Heyne, who received them from her son, Sapper A.G.E Heyne, of the Second Division of the Signalling Company, Egypt. They included a Turkish carpet and antique paintings of the sacred ibis and peculiar Egyptian figures.

As usual at country shows, there was a total lack of exhibits of agricultural machinery. In these days when the whole business of farming is being revolutionised by caterpillar tractors, harvesters, motor ploughs, and the application of motor transport generally, when a country like France to meet the onslaught of the invader and make up for the drawing off of vast numbers of the agricultural population is specialising in the manufacture of a variety of machines calculated to dispense with the use of whole teams of horses and gangs of men, every show should be provided with something of the latest and best in farm machinery. Societies are not responsible for the absence of such; but some concerted action should be taken to secure representative displays.

FROM MAUREEN LONG

I am stepping down as President at the AGM in February. I have been an active member since the late 1980's and served a long term as Secretary. I have had some health problems as a lot of us had, but feel it is in my best interests to have a break from duties!

Many thanks to all our local volunteers who have worked tirelessly over the last year when pandemic restrictions allowed to have the grounds looking beautiful, the gardens spectacular, the buildings looking spic and span, and the whole complex one to be very proud of.

There are many who stand out for recognition, who go that extra mile every time. You know who you are and I so appreciate your efforts!

A Grant application was made to Taralga Wind Farm Community Fund, and we were successful in our endeavour to obtain funding for Museum Air Conditioning.

Many thanks to the Windfarm who have helped our Museum over the years, without their help we wouldn't be such a successful enterprise!
